

Dear brothers and sisters:

It is a unique news letter since it came after the great miracle that happened to me, on Tuesday April the 24<sup>th</sup> at 10:30 Pm, I had a heart attack, and it lasts 20 minutes and the pain gone, at 1 o'clock after midnight another attack took place, I wake up my wife and asked her to do a cup of tea thinking there is a problem in my stomach, but she insist to take me to the hospital, it was windy and rain it is a stormy weather, I told her that I am not going in this weather I rather wait until the morning, but you know when the wife said something... on the way before we arrive to the English hospital I told her to continue to Afula hospital which is 20 minutes farther, she said no to the English, I was in pain and I could not fight back, we arrived at 2:35 am it was Wednesday the 25<sup>th</sup>, in the emergency they took blood for testing and told my wife to go out and they closed the curtain waiting for the blood test, just a few minutes my wife came back and open the curtain and finds me dead, my tongue was out and my teeth pressing it and voice came like snoring, she started screaming and the doctors came from all over the rooms, trying to bring life back to me after trying in hands they pull my bed to the room where they have an electric power system to give me a shot, they gave me two and my heart came back to life, it took them more than 60 seconds.

Now there is only one answer to all questions, it is not by chance that all these things happened to me, it was God almighty who watched over me, and he wanted me to be alive to continue the roll and the mission that he appointed me to do, he told my spirit who told you to leave Maurice's Body, go back and it did, I believe with all my heart that nothing can happen without God's knowledge and will to accomplish his goals.

Now people asked me a lot of questions trying to understand what happen and mostly what did you see in the other world, what you can tell us about those 60 seconds, how it's look like there? Well I told them that I do not remember seeing anything, but I felt and tasted the power of the resurrection, Philippians 3:10-11, Paul wanted that to happen to him , but I tasted it before him, I continued saying to those who asked me, that when I came back to life it was not quick and immediately, I remember when I opened my eyes I saw faces around me Doctors and nurses but it was not clear, it's just like hazy weather with fog, it took a while until it was cleared, and my voice was just coming from way down deep, I was telling them why are you afraid I just went to sleep for a minute, and they laugh at me, but believe me my beloved brothers and sisters I can witness that God has the power over death and he can raise us from the dead, it happen to me, death is death whether it take a 60 seconds or three days, but the good news are that all these things happened in the hospital not my home, because if it did happen in my home >>>>>.

At this moment I will use the opportunity to thank all of you who prayed for me and still praying, honestly speaking I do appreciate your love and concern and prayers, let me tell you that I am still in need for them, I am recovering very well, a new medication and new standard of life, food and exercise now is taking good behave, 64 years my Body was listing to me but now I have to lessened to him. Life is the most important issue for human beings, and God knew that, and that why he wants to give us another kind of live, it is eternal and that is free.

Another important thing I must tell you about, while I was in the hospital and at home recovering, the brave men of the church took care of work of the church, Thursday's bible studies and Sunday's worship services has been taking care of, thank be to Essam, Sandro, Gabi, Simon, they fill my heart with indescribable joy, my tears fell down when they send me a picture of their meeting at the what's up, knowing that even after my death the church will continue its message, thank God for his wisdom.

Well I am back to work, Healthy, both physically and spiritually hopefully you will be hearing a good news very soon, right now we have a special visitor Dr. Everett Harford, preach to us two Sunday's and teach our Thursday bible class, we will have a business meeting with him Friday, and hope he can carry the news to you, we are doing our best in planting and implementing the church work and needs and our enthusiasms and zeal for the church is in a full speed, all of our men and women are taking part of serving the church demands in all areas, we have never been in situation like this before, one family in reality, the yoke are light and the joy of serving is high and the fellowship is united, there is a daily communication among all of us, our needs have been met our goals are going well, every member are inviting their friends from outside the church and they come, we see new faces and new contact, the church is made known to the community, and there is more to come, right now we need your prayers, may God open doors for us to spread the good news in Nazareth and the surrounding area, we love you dearly and appreciate very much you support and your standing with us, and pray God's blessings upon you, and always enabling you to help his work, we wish that some of you can come and visit us, we want to thank you personally while you are in our midst.

Love you Maurice Jadon  
Nazareth, Israel
